THE FISHERIES QUESTION.

Synopsis of the Proposed Treaty with the Dominion.

Secretary Bayard has authorized the publication of a draft of a proposed treaty between the United States and Canada on the fisheries controversy. The treaty calls for the appointment of a mixed commission to agree upon the limits which shall separate the exclusive from the common right of fishing off the coasts of the British North American colonies, to agree upon regulations to secure to the fishermen of the United States the privilege of entering bays and harbors for the purpose of shelter, for repair and for the purpose of drying fish, and to agree upon penalties for the violation of such privileges. Pending a definite arrangement, Great Britain agrees to instruct Canadian officials not to molest the fishing vessels of the United States, unless they are found actually fishing within three miles of the coast.

Both governments agree to send each to the Gulf of St. Lawrence a national vessel, and also one each to cruise during the fishing season on the coast of Nova Scotia. When a vessel is seized for the violation of the foregoing provisions, the matter is to be reported to the officer in command of one of these national vessels, who, in conjunction with the commander of another of said vessels, shall constitute a court of inquiry.

It is proposed to give to fishing vessels the same courtesy and advantages as are enjoyed by other United States vessels, including the purchase of bait and supplies, all such vessels under seizure for the violation of the foregoing provisions, and all such vessels under seizure for the violation of the foregoing provisions, and all such vessels under seizure for the violation of the foregoing provisions.
